2012 ASID PEOPLE'S CHOICE AWARDS

## Art Studio & Gallery

DESIGNER:  
Charlene Ackley, Allied ASID,  
Charlene Ackley Interior Design

"THE SHOWCASE HOME HAD SO much positive energy," says interior designer Charlene Ackley. "It was truly a joy designing the art studio and then hanging out and greeting people when it was open to the public."

Ackley is proud of the way that the room's many features came together to make a splash. "Many of the pieces can stand alone, but it's the culmination of John Larsen's art collection, the Jackson Pollock-inspired floor, the sectional, the accessories, and the fabulous natural lighting that make the art studio complete."

"Charlene did a great job of integrating our fascination with graffiti and street art into the environment," says

Larsen. "She designed a bright, energetic space that's great for creating art and celebrating life."

"Winning the People's Choice award has been both exciting and humbling for me. I appreciate all the wonderful comments and reactions I received while in the room." - CHARLENE ACKLEY
