HOME TOUR 09

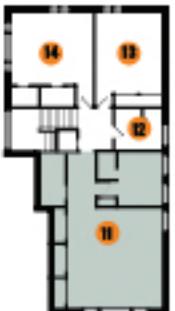

When placed in front of the full-length mirror, a wenge-stained Zenith table, complete with frosted-glass top, creates a retro hotel suite feel.

A Big Easy chair from KDR Designer Showrooms provides ample space for family members to cuddle and read.

ASID SHOWCASE HOMETOUR 09 SPACE 11 ROOM Owners' Suite

This stylish, urbane owners' suite draws on contrast and classic mid-century furnishings, including white tulip tables and a deep, velvety chocolate platform bed. A white-on-chocolate color scheme is repeated in the owners' suite bath, where a stunning modern pedestal tub backs up to a rich-espresso wall. A modern graphic floral-and-striped fabric by Jack Lenore inspired room designers Bonnie Birnbaum, Keri Olson, and Charlene Ackley. The design team used this exquisite fabric for the bath's Roman shades and for the bedroom's pillow shams, as well as for accent pillows on the ginger-red saucer chair. To top off this magnificent suite, a light-to-dark gradation of dusty turquoise begins at the top of the low-vault ceiling and runs to the floor behind the sleek platform bed, creating a dreamy cloud-like feel.

Haute opaque glass mosaic tiles in various shades of aquamarine give this room a spa-like feel, yet it is functional and family friendly.

ASID SHOWCASE HOMETOUR 09 SPACE 12 ROOM Second Floor Bathroom

The second-floor bath has a definite mid-century modern vibe. Cool vapour green porcelain sinks with a pull-out step stool vanity and bold-patterned fabric for window treatments and accents make this space pop. To create an exceptional vanity area with an unexpected sense of drama, designers Carla Bast and Mary Ellen Gardiner use a mosaic, glass-tiled backsplash covering the entire wall in dynamic shades of aqua, blue, and green, and then highlight the area with backlit mirrors. To add another interesting twist, a backlit, frosted-glass shelving niche also functions as a nightlight for the children.
